IMAN HAJIALI

PRODUCT DESIGNER / UI & UX

Tehran, Iran | imaanhajiali@gmail.com | +989981093963 | LinkedIn

About Me

Product Designer with experience in e-commerce and service platforms. Combines UI/UX design and front-end implementation to create clear, consistent web experiences within business and technical constraints.

Experience

Nourchi / Electrical Supplies E-commerce

UI/UX Design & Front-end Implementation | 2025 - 2026

- Designed and refined the storefront UI/UX across product discovery, product details, cart, checkout, brand pages, and service pages.
- Translated purchasing requirements into responsive page structures and interactions, maintaining visual consistency across desktop and mobile.
- Collaborated with the business owner, CMS developer, and SEO team on requirements, design revisions, and implementation.

Mignet / Advisory Marketplace

Logo & Brand Identity Design

- Designed the Mignet logo and worked on the brand's visual identity.

Brandi24 / Exhibition Services Website

UI/UX Design & Front-end Implementation

- Designed nine service and corporate pages, organizing content and inquiry flows around customer needs and business services.
- Extended the existing visual identity into reusable UI patterns and shared design foundations for responsive pages and themes.

Shandana / Digital Menu

Freelance UI/UX Design

- Designed a responsive digital menu, organizing menu content into a clear, consistent browsing experience for mobile users.
